	Next (3)

1. Do not keep the Seestar app running in the background or close it during activation. 2. If activation fails, check the Internet access of your phone or tablet and then try again. If the issue persists, please contact customer support.

5. After successfully connecting to Bluetooth on your phone/tablet, the Seestar app will automatically connect to the Seestar's Wi-Fi network

If the connection fails, please follow the prompts to retry or manually connect to Seestar's Wi-Fi. In your phone or tablet's system settings, navigate to "Wi-Fi" and select Seestar's Wi-Fi network (S50 xxxxx), and connect using the initial password "12345678".

3. Installing the solar filter

For solar observation/imaging, it is necessary to use the Seestar S50's specialized solar filter. Attach the solar filter securely to the Seestar S50 lens and point it at the sun.

After observing, please adjust the S50 lens away from the sun first, then remove the solar filter and store it properly.

4. Open Seestar S50 app and embark on your adventure!

5. Battery removal (if necessary)

1) Use a Phillips screwdriver to unscrew the two cross recessed pan head screws (size: M3x8) on the bottom battery cover of the Seestar S50. ② Open the battery cover.

③ Gently detach the battery's connector from its socket

④ Remove the battery.

1. Before replacing or removing the battery, please make sure the device is powered off and disconnected from any power source. Additionally, handle the operation with care to avoid damaging the device or battery.

2. After removing the battery, please store it properly to prevent any short-circuiting.

6. What's in the box?

Tripod
